

SMOKY

Smoky, you ain't my sky  
I really want to say good-bye

Money was your lies  
Wish I know the reason why

'Cuz' my head is clear  
All the time I'm free, in my life

Music is like a star  
Shinin' brightly from a far

Magic, it's just a pole star  
Find a way with my guitar

And I know, I've got direction  
And I know there's no connection with my action

Something flowing in my brain  
Feel so good and there's no pain

Find myself in the rain  
While my friends keep me sane

And I know it aint no good  
When I'm standing in the sun like a fool
