

Voodoo chiled

I'm standin' next to a mountain.
And I tumbled down through the hedge my hand.
I'm standin' next to a mountain.
And I tumbled down through the hedge my hand.

I think of all the pieces that make as island.
Might even be of sand .
Cause I'm a voodoo chile.
Lord knows I'm voodoo chile.

I said I don't mean to take up all your sweet time.
I'll give it right back to you one of these days.
I said I don't mean to take up all your sweet time.
I'll give it right back to you one of these days.

I don't need you no more in this world.
I need you in the next one. Don't beat it,
cause I'm a voodoo chile, Voodoo chile.
Lord knows I'm voodoo chile.

A voodoo chile, voodoo chile,
I'll take you on a trip.
